Agree with Andy! Wow! Very nice.

My only question is what is the difference between the second and third sample location maps?

Hi Haile,

If not too late or too much trouble a couple of additional suggestions for the two contour maps (and sample location map as appropriate in your judgement):

## Ex. 5 Deliberative Process (DP)

# Ex. 5 Deliberative Process (DP)

If these don't work for you, I understand.

I will add the airport and wind rose to the maps. When did you collect the soil data?

Best,

Haile

Hi Haile,

# Ex. 5 Deliberative Process (DP)

So you know what I am hoping for all your great efforts, the journal allows a maximum of six figures/tables in their papers. I am writing the manuscript with your maps being two of the six paper figures.

I still hope to have a manuscript and SM drafted the end of this week or next.

I will have EPA email turned off most of the day to minimize writing interruptions. Feel free to text me if you need to communicate.
